ABOUT LANA

Born in Belarus, Lana Gautier began acting when she was six years old. Even then, the lure of Hollywood was intoxicating. As a child, she told everyone who would listen (and even those who wouldn't) that she was going to America to become a famous actress. They didn't believe her, but she proved them wrong. After graduating from college, Lana boarded a plane and headed to Hollywood.

On screen, Lana has proven to be quite versatile. In only her fourth audition after arriving in the United States, she landed the role of Gloriella in the critically acclaimed short *Love Thy Neighbor*, a film that won a Director's Guild Award and was later showcased at the Cannes Film Festival. She played a major supporting role in a feature film *Blackmark* (Sony Entertainment) and lead roles for the highly acclaimed short films *Neptune* and *The Birthday Card* (Best Film, Youth Category at Holly Shorts Film Festival) Through her own production company, Mental Note Productions, Lana has begun development of the feature film, *The Vardøger*. She also starred in and co-produced the comedic short film *Pitching Jesus* and plays the title role in the popular web series *Ask Dr. Juli*.

Lana has received professional acting training from the prestigious Sanford Meisner Center, The Acting Corps and South Coast Repertory. She is a Graduate of the Belarusian State Academy of Arts.

Her hobbies include outdoor exploration, numismatic acquisition, freehand sketching and code breaking.
